TO WHOM SO EVER IT MAY CONCERN

This is to certify that we have 18 **WEISHAAPT** monobloc light oil burners (**WL30Z-A 12Nos., L3Z verD 3Nos., L5Z verD 1No. and RL8/2 2Nos.**) operating on the DUUR Systems GmbH, GERMANY painting facility hot air generators and on the THERMAX LIMITED, Pune shell type, reverse flame hot water boilers are functioning very well since 1997. We are very much happy with the quality of burner systems as well with the combustion results.

We are pleased with the service backup and the technical supports provided by Weishaupt's authorized local agent M/s.**RAJNI INTERNATIONAL**. They carried out the installation and commissioning of the above said all burners with full commitment and professionalism.They have conducted training program at our factory on operation and maintenance of the burners.We are very much happy with the services rendered by M/s. Rajni International.

We recommend **WEISHAAPT** burners for any heating applications more so with the wonderful local support available from **RAJNI INTERNATIONAL**.

With warm regards,

For FORD INDIA LIMITED,
